WILLIAMSTOWN

The ladies of the Universalist church will hold a food sale at the church Saturday afternoon next, from 2 till 4 o'clock.

Ralph Martin, a former resident, whose home has been in East Barre for several years has lately been in town visiting relatives.

A. E. Emery of Randolph is spending some time in town in the interest of Lord, Stone & Co. of Otter River, Mass., manufacturers of stoves and ranges.

Mrs. William E. Randall, librarian of the public library, was the guest of the camping party at the Lynde cottage, Berlin, from Sunday night till Tuesday night of this week.

Miss Mary Ainsworth of Moline, Ill., is visiting her aunt, Mrs. Laura A. Ainsworth.

Mr. and Mrs. Charles L. Marsdale and son, Allen, of New London, Conn., were recent guests of Mr. and Mrs. V. B. Savery. They, with Mr. Savery and family, motored to Lake Morey on Sunday, returning via White River Junction.

Eleven young ladies of the village and vicinity enjoyed a day's outing at Mirror lake, Berlin, on the 19th. Four teams conveyed the party to C. H. Stewart's and the day was spent as pleasantly as could be, considering it was the hottest day of the year. At noon a picnic dinner was partaken of in the grove near Mr. Stewart's.

Milton Danziger, who is in government employ in the interest of boys and girls' clubs, is spending a few days in town with Supt. Charles R. Beeman.

Elgin Martin has vacated the tenement he has occupied for some time over the G. F. McAllister store and is staying temporarily with Mrs. Martin's mother, Mrs. Eldora Thompson, of route, No. 3.

WEBSTERVILLE

There will be an entertainment and social in the Baptist church Friday night, July 21. Ice cream will be served.

Heard in an Office.

"Hard old codger, he!"
"Say, if that skink had any of the milk of human kindness, he'd churn it into butter and sell it."

Sneering at a Genuine Achievement.

It is regrettable that, on the part of a certain section of the press which is not first and always pro-American, there is an attempt to minimize the achievement of our German brethren in sending to these shores in time of war and stringent blockade a submersible trading vessel equipped to perform regularly just what she had done on her maiden voyage.

It is not probable that the Deutschland has solved the blockade problem. It is not probable that her voyage has materially affected the trend of the great war. But it is true that she has done what hitherto has never been done, that it has been done at a time when the allied navies are engaged in preventing Germany from communicating with neutral nations, and that if it had been done in time of peace it would have been hailed as epochal by those who now sneer at it.

Is it impossible for the pro-ally press of this country to absorb and appreciate such tremendous facts as that which the Deutschland's voyage demonstrates? Are they unable to realize that Germany, when peace comes, and no matter how it comes, will still have to be reckoned with in the bitter rivalry of commerce? There is a lesson for all of us in the first trans-Atlantic voyage by a submarine. It should be heeded by those whose eyes are tightly closed to the necessity for adjusting this country's commercial resources to conditions of peace as well as for perfecting our military and naval defense.—Boston Traveler.

Sound Versus Sense.

While her mother was entertaining a caller, little Edna came in from school. During the talk the child told how the teacher was giving them each day a motto to remember.

"And what was the motto to-day, dear?" asked the caller.
"Susie Adam forgets Susie Adam," quoted Edna confidently.

Both ladies were much mystified over this singular motto, but they finally arrived at the conclusion that what the child meant was "Enthusiasm begets enthusiasm."

Imitate the Hen.

It's not much use to lay your plans unless you warm up to your work and hatch them out.

Miss Ethel Holder, who has been passing several days at the home of her mother, Mrs. Thomas Holder, in Mount Vernon place, returned this forenoon to Claremont, N. H., where she is attending the training school for nurses at the Claremont hospital.

Benjamin Batchelder of South Main street, driver of combination No. 3 at the fire station, began his vacation of two weeks from his duties today. With Mrs. Batchelder and their child, he will pass a week in camp at Plainfield. Peter Purcell, who has been passing a week in camp at Perkinsville with H. H. Hodgdon and E. C. Cutler of the call department, resumed his work at the fire station this morning, after a vacation of a fortnight.

Excessive heat again compelled a suspension of operations in a number of stonehills at 92. Near noon the mercury stood at 92, which appeared to be the high water mark for the week. In the sun the mercury sizzled around the 100 mark and people were observed to scan this reading with a shiver that did not portend the chill that zero weather induces. The humidity was not so intense as at other times in the past fortnight, albeit relief in the form of a cooler wave was not in the weather clerk's plans for to-morrow. Campers took possession of City square late last night, and several of their number remained asleep on the green until morning.

BURLINGTON TEAM WINS.

Defeats Montpelier on the Queen City Grounds, 10 to 6.

Burlington, July 20.—Burlington defeated Montpelier yesterday in a loose fielding, free hitting contest, 10 to 6. Palmer and Gallagher divided box honors, with the latter having slightly the better of it. Palmer, however, struck out 10 men. Costly errors by the visitors helped the locals in the score column. Montpelier tied the score in the fifth, but Burlington came back strong in the sixth, scoring three runs on three singles, an error and a steal, which put the game on ice. The score:

Burlington.....31020310x-10 83
Montpelier.....003030000- 6146

Batteries—Palmer and Hamilton; Gallagher and Phillips.

None of Her Business.

Assistant (to old lady, who has handed in a badly spelled telegram)—What's this word, please?

Old Lady—Never mind that, miss; it's none of your business. They'll know at the other end.—Passing Show.

More Feminine Logic.

Helen—Why did you cut Mr. Smithers?
Eva—My Pekinese doesn't like him.—Judge.

Unusually rich deposits of granite have been uncovered within a comparatively few feet below the surface at the extension of Jones Bros' quarry in Websterville, where a large gang of men have been at work on a stripping project since last spring. Encouraged by the favorable development of the project, it is stated that the well-known north end concern propose to continue the stripping over a much larger area of quarry land in the same region.
